## Professional Summary

Data Analyst with a Bachelor's in Computer Applications (Data Science & AI) and hands-on experience across six end-to-end analytics projects spanning sports, transportation, politics, and full-stack AI tooling. Proficient in Python (Pandas, NumPy, Matplotlib, Seaborn, Plotly), SQL, and BI platforms (Power BI, Tableau, IBM Cognos), with 45+ certifications from IBM and Microsoft in data science, AI, and business intelligence. Skilled at designing reproducible EDA workflows and communicating insights clearly to technical and non-technical audiences alike.

## Technical Skills

**Languages & Querying:** Python, SQL, HTML5, CSS3, JavaScript

**Data Analysis:** Pandas, NumPy, Scikit-learn, Jupyter Notebook, Exploratory Data Analysis (EDA), Data Cleaning & Wrangling

**Visualization & BI:** Power BI (DAX), Tableau, IBM Cognos Analytics, Matplotlib, Seaborn, Plotly, Excel (Pivot Tables, Power Query, VBA), Google Sheets

**Databases & Statistics:** SQL Server, MySQL, Relational Database Design, IBM SPSS Modeler, Predictive Modeling

**Tools & Platforms:** Git, VS Code, Cursor, Cloud Platforms, Microsoft Copilot, ChatGPT, Google Gemini, Prompt Engineering, API Integration

## Projects

**IPL Data Analysis (2008–2025)** | *Python, Pandas, NumPy, Matplotlib, Seaborn, Plotly* [GitHub](#)

- Built a match-level, ball-by-ball analysis pipeline across 17 IPL seasons, cleaning and transforming raw records with Pandas/NumPy to surface run patterns, wickets, and player performance trends.
- Delivered a reproducible Jupyter Notebook workflow with Matplotlib/Seaborn/Plotly visuals demonstrating time-series and sports analytics techniques.

**Master Error – AI-Powered Debugging Assistant** | *Python, Flask, HTML, CSS, JavaScript, Google Gemini API* [Live Demo](#)

- Co-developed a full-stack debugging assistant integrating the Google Gemini API to detect syntax/runtime errors in real time, auto-generate corrected code, and explain fixes in plain language for beginners.

**Lok Sabha Election 2024 Result Analysis** | *Python, Pandas, NumPy, Matplotlib, Seaborn* [GitHub](#)

- Conducted a constituency-wise analysis of India's 2024 general election results, visualizing party performance, victory margins, and regional voting trends.

**FIFA World Cup Data Analysis** | *Python, Pandas, NumPy, Matplotlib, Seaborn* [GitHub](#)

- Analyzed historical and match-level football data across multiple tournaments – team rankings, expected goals (xG), and attendance – to identify goal-efficiency and competitive-dynamics patterns.

**Uber Data Analysis** | *Python, Pandas, Seaborn, Matplotlib, Jupyter Notebook* [GitHub](#)

- Performed end-to-end EDA on large-scale ride-hailing trip data, translating peak-demand and pickup/drop-off hotspot insights into recommendations for driver allocation and surge pricing.

## Education

**Babu Banarasi Das University, Lucknow** 2022 – 2025

*Bachelor of Computer Application – Data Science and Artificial Intelligence*

**Lucknow Public School, Lucknow (C.B.S.E. Board)** 2021 – 2022

*Class XII – Commerce with Informatics Practices*

**Lucknow Public School, Lucknow (C.B.S.E. Board)** 2019 – 2020

*Class X – Science with Computer Science*

## Certifications

**IBM:** Data Science & Analytics, Data Science Methodologies & Tools, Python for Data Science, SQL and Relational Databases 101, Data Analysis & Visualization Using Python

**Microsoft, LinkedIn Learning & BI:** Azure AI Essentials Professional Certificate, Career Essentials in Data Analysis / Generative AI / Project Management, Power BI, IBM Cognos Analytics V11.1.x, Predictive Modeling Fundamentals, Prompt Engineering, AI for Beginners
